

CV Filippo Salucci

City Operation Manager - Municipality of Milan.

Born in Pesaro in 1964, he graduated in Architecture from the Polytechnic University of Milan and worked as a designer in the early part of his career, where he was mainly involved in infrastructure design. From 1994 he joined the Public Administration as an architect dedicated to public works. From 2007 he began his work as Area Director at the City of Milan, and followed, among several projects, that of the construction of the new M4 and M5 metro lines.

From 2011 to 2021, he is Director of the Central Directorate for Mobility, Transport, Environment and Energy. In addition to being an expert in the field of mobility and infrastructure, he develops an interest and sensitivity with respect to environmental issues, such as air quality, the development of policies to improve access to water, and the improvement of integrated sustainable mobility systems.

From the end of 2021 until 2023 he assumes, at the Agenzia del Demanio, the central direction of the Structure for Planning, also performing other roles including Acting Director of the Lazio Territorial Directorate and the Roma Capitale Territorial Directorate. In 2024 he is appointed, at the City of Milan, to the role of City Operation Manager for the coordination of strategic projects of the City of Milan.
